Was the lesson's objective clear from the beginning? If yes, was it clear how the lesson met content standards and benchmarks?

How would this program complement what you do in the classroom & when would you use it during the school year?

Were the pre-conference materials/kit sufficient and easy to use with your students? How far in advance would you like to receive these materials or download them from a web site?

What other resources or multi-media materials would have been helpful to realize the lesson's full potential?

Were the far-end activities engaging for students? Was the structure (ie. group work, lecture/discussion, student presentation) appropriate for the lesson?

Please comment of the quality and capabilities of the presenter.
